The Lower Mainland Horticultural Improvement Association organizes the Annual Growers' Short Course. 2018 is our 60th anniversary.

The Lower Mainland Horticultural Improvement Association organizes the Annual Growers' Short Course. The money raised from registration/membership is primarily used to fund agriculture research projects which benefit farmers/producers on the Lower Mainland but also to support the members' pesticide certificate re-certification program management.

www.agricultureshow.net

This project is supported by *Growing Forward 2*, a federal-provincial-territorial initiative.
